SCIENCE :
A DISCOVERY IN COMICS
by Margreet de Heer

Who exclaimed 'Eureka!' and why? What is the Philosopher's Stone? Why did Galileo get into a fight with the Church? What happens when someone has their DNA tested? All these questions and many more are answered in a chronological journey from ancient times to modern Quantum Theory, with creators Margreet and Yiri as the witty guides. This is a great comic book for anyone who wants to learn in a fun way the bigger framework of science, or brush up on what they learned in school.
